Undefeated Season For Cat Swimmers

By Matthew Morris
Universe Sportwriter

Brigham Young University's swim team finished an undefeated season Saturday by shooting down the Air Force Academy swimmers, 68-36, after plowing under the Aggies of Utah State, 92-12, Friday night.

Both victories were in the Richards Physical Education Bldg. pools, and gave the Cougar swimmers a 17-0 mark for the regular season.

AMONG FAVORITES

Though BYU is only in its second year of varsity swim competition, the Cougars must be rated among the favorites in the Western Athletic Conference championships to be held Thursday through Saturday at BYU.

The Cougar swim squad, ground-undefending champ Utah, 75-29, Jan. 21. The Redskin swimmers every year, and prior to the loss to BYU, had never lost a dual meet to a WAC school.

Coach Walt Cryer's crew had so difficulty gaining a win over Utah State's outnamed Aggies Friday. It was USU's 14th straight loss.

The Cougars broke nine of 12 meet records against the Farmers, and freshman Fred Baird broke a national frosh record in the 200-yd. butterfly with a 1:57.3 clocking. The existing standard of 1:57.8 will remain, since Baird was competing as a varsity swimmer.

BYU's outstanding frosh swimmers were not used in the varsity meet against Air Force, but the Cougars nevertheless won handily.

Dennis Meyring, the only senior on the Y squad, placed first in the 200-yd. individual medley and the 500-yd. freestyle.

Other double winners for the Cougars were Doug Reagan (50-yd. free and 100-yd. free) and Ron Burton (200-yd. free and 200-yd. butterfly).

RYNO WINS

Diver Jay Ryno won his specialty in both weekend meets, his best effort being 237.85 points against the Cadets.

Seven meet records were set in Saturday's outing.

The Cougar freshmen were victorious against their Air Force adversaries, 78-28.

Provo, Utah

Bishop Vandenberg To Speak At Devotional

Bishop John H. Vandenberg, Presiding Bishop of The Church of Jesus Christ of Latter-day Saints, will address the BYU Devotional Tuesday. The assembly will be held at 10 a.m. in the Smith Fieldhouse. Since 1963, Bishop Vandenberg has served as vice chairman of the building committee of the church in charge of finances. He has called to be Presiding Bishop 1961. His duties include membership of the Church Expenditures Committee, the General Priesthood Committee, general manager of the church Welfare Committee and

presiding over the Aaronic Priesthood of the Church.

Born in 1904 in Ogden, Utah, where he attended school, Bishop Vandenberg is married to the former Rena Stok, and they have two married daughters, Mrs. Lenore V. Mendonhall and Mrs. Norine V. Francis, both of Salt Lake City.

Extension Publications offers printed copies of all Devotional speakers' talks in 222 Herald R. Clark Bldg. from 8 a.m. to 5 p.m. daily.

Student's Cars Need Stickers

Beginning Mar. 1, all non-resident students must display 1967 Utah non-resident student permits and Utah Highway Patrol safety inspection stickers on their cars. However, an out of state student may display a 1967 safety sticker from his home state in place of the Utah sticker.

To be eligible for permits, the applicant must be a full time BYU student and using an out of state vehicle registered in his name or that of his parents or guardian.

Permits may be obtained in the Security Office, B-66 Snoot Administration Bldg., by showing an out of state registration certificate, a fee receipt from the BYU cashiers office, and an affidavit of inspection.

Chamber Music Recital Tonight

By Camilla Miner
Campus Events Editor

An attempt to communicate what chamber music has for the audience will be presented at 8:15 p.m. in the Madsen Recital Hall. Titled

"Why Chamber Music? A Recital Annotated," the program will feature student chamber groups with comments by Dr. Darrel W. Stubbs of the music faculty. Dr. Stubbs announced that the

program will point out the distinguishing characteristics of this musical form. "Much of the best music written lies in this general field, but because people don't under-

See Recital page 8

Finance Board Proposal Outlined

By Richard Hedberg

ASBYU Executive Assistant

For any business to be successful, there has to be careful control of its finances. If, with this in mind that the new constitution proposes the creation of a Finance Board. The new constitution provides that the Vice President of Finance shall appoint the chairman of this board; this person may be himself or some other qualified person.

By having the finance office appoint the chairman, it insures that the financial procedures of the university will be met and followed. The student body president is granted the authority to appoint the remaining four members of the board.

There has been some concern expressed over the fact that the student body president will be able to control the finance board with his four appointed members. However, in consideration of this point, a few pertinent facts may be helpful.

First, the fund presently budgeted to the President's office represents 2% of the total ASBYU Budget; this amount is sufficient for his needs, since his office does very little actual programming and therefore does not need any sizeable amount of the budget. Second, although the president appoints these people, each person must be approved by both the cabinet and the executive council; this acts as a check and

helps to insure that men with an interest in the overall student program will be selected to serve.

Finally, once these men have been appointed, they will function relatively autonomous to any office, and therefore will be "controlled" by no one individual.

It will be the responsibility of the board, to prepare the ASBYU Budget and present it to the Executive Council for their approval. It will also be the Board's responsibility to appropriate the funds, subject to Executive Council approval, requested by groups from the unclassified fund of the budget.

It will be the Board's sole responsibility to handle the financial appropriations of the ASBYU; they will have no "obligations" to any specific office.

Political Forum...

Should We Remove Reds From Cuba?

(Editor's Note: Political Forum is a regular feature of the DAILY UNIVERSE. This week's topic is "Should the U.S. Take Action to Remove Communist From Cuba?" Next week's topic is "Can Pro-Communist be removed from Cuba?" and the following week's topic is "Should the U.S. Take Action to Remove Communist From Cuba?" Contributions are welcome and will be published in the editor's box, at the base of the Wilkinson Center.

SHOULD THE U.S. TAKE ACTION TO REMOVE COMMUNIST POWER FROM CUBA?

by Adolf Fritz Becker

Perhaps the question ought to read: "Should the U.S. take action to guarantee the continuity of communist dictatorship in Cuba?" This alone would constitute a considerable step for Fidel Castro without any direct action on our part. The U.S. is protecting the island from any ex-Cubans wishing to free their homeland through revolution.

The United States protects the bearded Marxist as a result of the late Pres. Kennedy's negotiating "success" with Premier Nikita Khrushchev. Here is Khrushchev's reply to J. F. Kennedy's "deal" as it appeared in the New York Times Oct. 6, 1962:

"I regard with respect and trust the statement made in your message on Oct. 27, 1962, that there would be no attack, no invasion of Cuba, and not only on the part of the United States but also on the part of other nations of the Western Hemisphere as you have said in the message of yours."

In turn, the U.S. was assured that all offensive missiles would leave Cuba. The U.S. rigorously enforces Kennedy's anti-Monroe Doctrine blunder, no credible guarantee or proof of the removal of missiles is existent to this day.

On the contrary, many reliable sources are reporting their continuing presence. Yes, the U.S. should take action to remove communist power from Cuba. We should start by stopping to support his regime through numerous grants and gifts via the U.N. and other agencies. (The U.S. taxpayer pays 40% of the U.N. grants to Cuba.) We should further stop to grant loans to the East Block Nations who are also the chief suppliers of Cuba and North Vietnam.

WHY BRITAIN

Why do we support Britain's blockade against Rhodesia while England deals quite freely with our enemies? Is Rhodesia a greater threat to peace than No. Vietnam or Cuba? Is it conceivable that we intend to remove communism from South Vietnam which is halfway around the world from us while we present ourselves to the world as incapable to remove Fidel Castro 90 miles from our own shores? Is any wonder why the Viet Cong simply cannot seem to believe in our proclaimed determination? The time for action was in 1962 to be sure, but it is not too late.

Encouragement of counterrevolution and strict enforcement of the economic blockade by us and other nations could do much to get Castro into even deeper trouble and to the removal of communism from Cuba. If England can seem to go along with us, maybe we then should find ourselves unwilling of going along with the Rhodesian blockade or saving the English pound next time around. All other trading partners with Cuba are vulnerable in some or other way.

POLITICAL STRENGTH

Even if the United States would stand to lose friendship and the lives of many, we should as a matter of morality and in order to secure the blessings of the Almighty pursue a course of political strength based in integrity and uncompromising action in behalf of liberty. While it may be argued that the Monroe Doctrine is dead and that we have no business to interfere in the internal affairs of Cuba no law on earth or the other hand can force us to protect and aid our proclaimed enemies as we do so openly at the present. Let us return to political sanity. If such course should prove to be endangering the peace, then let us remember that weakness also endangers not only the peace but brings the loss of honor, liberty and faith with it as well. Let us choose while the choice can still be made.

THE WOODCHOPPERS

by Lori Dobson

The woodchoppers leave. They go forth in boats. They climb aboard planks and depart by air. They go abroad. They ships and boats are heavily laden with axes and saws to assist them in their quest. The men are going to fulfill their duty to chop at the tree which threatens them.

They go because they know the nature of this tree the tree is fighting. They realize that its trunk is grown from evil soil; that its branches are composed of discontent, deceit, distrust, and dishonor; and that the leaves that cover it are formed from guile and betrayal.

They understand that they may not be able to exterminate this tree, but they are determined to prune it down to keep its evil branches from throwing forbidding shadow across their own land.

RUN TO LUNUS

Yet, while they run to Luniun lands to cut and chop deep roots are growing and developing close to home. More than one hundred miles off the coast of their own country. This extension, or graft, of the mother tree is allowed to

The Church This Week

by Don Searle

Religion Editor

Worldwide expansion of the Church continues apace with more than 62 chapels now under construction in all parts of the world.

In addition to the chapels now being constructed, many more are in the planning stages, some of them scheduled to begin construction this summer.

In order to control its widespread construction projects, the Church Building Department Committee has established headquarters, each with its regional supervisor, in different geographical regions of the world. The regional supervisors will work closely with stake presidents, mission presidents, and general authorities assigned to the region.

ENGLISH DESERT CLUB

Oxford University now has its own Desert Club, the first ever organized outside the United States or the Pacific Islands.

Pres. Don Archer of the British South Mission organized the club January 27. The organization is headed by Oxford student Gilbert McCabe. Named as secretary and treasurer were Graham Soot and Peter Joyce, also students.

MISSION PRESIDENTS MEET

Mission presidents of Eastern America recently met in New York City with Elder Harold B. Lee, of the Council of the Twelve, and Elder Henry D. Taylor, Assistant to the Twelve.

Attending the three-day seminar were Pres. and Mrs. Boyd K. Packer, New England Mission; Pres. and Mrs. Lamont F. Toronto, Canadian Mission; Pres. and Mrs. Wilford M. Burton, Eastern Atlantic States Mission; Pres. and Mrs. W. Jay Eldredge, Eastern States Mission; and Pres. and Mrs. Reid E. Bankhead, Camorrah Mission.

ELDER BENSON SPEAKS

Three different groups heard Elder Ezra Taft Benson, of the Council of the Twelve, speak last week. He was invited to speak Friday, February 24, at the meeting of the Christian Crusade, in Tulsa, Oklahoma. Monday, February 20, he addressed Idaho State University students during Religious Emphasis Week, and February 17, he spoke to the Portland Forum on Americanism, at Portland, Oregon.

Bell Labs Donate Equipment

A class in scientific equipment from the Western Electric Company and Bell Telephone Laboratories has matriaculated in a unique program of industrial aid to higher education at BYU.

The equipment, which consists of 20 types of electrical and scientific apparatus, has been donated to the school as part of a sustained commitment to higher education.

Some 500,000 used, surplus and industrially obsolete items from Western Electric, the manufacturing and supply unit of the Bell System, and Bell Labs, the system's research and development arm, are collected each year and distributed to engineering and scientific laboratories of more than 500 colleges and universities.

Basically, the Bell System's long-range purpose is to strengthen scientific and engineering education. But this summer the gift program proved its value in a pinch.

Several weeks after much of the laboratory equipment of Elon College in North Carolina was destroyed in a fire, Western Electric delivered 100 pieces of scientific equipment. Since commercially ordered replacements could not have been obtained before the start of the fall semester, the equipment was a timely gift. Much-needed measuring equipment, including oscilloscopes, wave analyzers, electron tube testers and power supplies, were sent from Bell Labs.

The Bell System's College Gift Program, administered by Western Electric, began in the Twenties with the donation of 18 surplus oscilloscopes to several northeastern schools and has grown to a size dwarfing this modest beginning.

So big has the program become that it makes a special catalogue, published annually, to list available materials, and 11 warehouses scattered around the United States to warehouse them.

Over the years, gifts have ranged from thermistors small enough to take a grasshopper's temperature to a microwave antenna large enough to register radiation from the stars.

Published Monday through Friday during the academic year and tri-weekly during the summer, the magazine is a source of information and entertainment for students. The Daily Universe is published by the Associated Students of Brigham Young University for students, faculty, administration and staff.

The opinions expressed on the editorial page of the Daily Universe do not necessarily reflect the views of the student body or University administration or faculty members.

Letters to the editor must be typewritten, double spaced, no longer than 250 words and signed to be considered for publication. Letters to the editor should also include the author's student number or position with the university.

Zoology, Dance Majors Compete In Two National Queen Contests

Editor's Note: Camilla Mier is a member of Modemist's College Fashion Board.

Final judging over the weekend selected Sherry Plumb and Mary Ellen Madsen as winners of the queen contests sponsored by the Daily Universe.

Miss Plumb, a five-foot nine-inch blonde from North Hollywood, Calif. was selected as BYU's entry in the "Ten Best-dressed College Girls in America" contest, while Miss Madsen from Flagstaff, Ariz. was chosen to represent BYU in

the "National College Queen" contest.

A panel which included Universe staff members Camilla Mier, Dave Hoover and Dona Gregory as well as student body president Lynn Southam and his wife Lee Ann picked the winners from over 50 entries. Applicants were judged on the basis of their pictures and their letters of entry.

Two finalists were chosen for the Best-dressed Contest and asked to model three outfits before judges as well as write a short summary of their fashion knowledge and answer questions on style.

PROFESSIONAL MODEL

A junior majoring in zoology, Sherry Plumb is completing requirements to enter a school of dental hygiene next September. She says she has always been interested in the fashion world and consequently has taken several courses in that area. A tall girl, she has done fashion modeling professionally in her spare time.

She describes her fashion type as tailored and dramatic and most of her clothes are in vivid colors.

Miss Plumb, a member of Alpha Lambda Delta Honorary Society,

is also interested in dramatic arts and was a member of the Production Guild two semesters, during which she went on tour with the group as a dancer.

Mary Ellen Madsen is a junior majoring in dance. Known to many BYU students as a songleader, she has been a member of Orchestis (modern dance group), Sports-women, the Pep Committee and the Cougarette marching team.

PLANS TO TEACH

Miss Madsen, who was chosen "Outstanding Freshman" in her college, is interested in learning new techniques of physical exercise. She says her goal after graduation is to teach, perform and choreograph in dance and to become a successful homemaker.

This summer she will attend the Connecticut School of Dance for a six-week intensive course in modern dance.

Mary Ellen has maintained a 3.0 GPA while carrying an average of 19 hours per semester in addition to her extra-curricular activities. Other titles she has held are Miss Coconino County and Miss Flagstaff Arizona.

Political Forum

Continued From Page Two

grow unhindered, to mature unimpeded. And it does grow... This tree of Communism, with its graft in Cuba, is expanding, enlarging. Its economy is being primed with Russian financial assistance at the rate of one million dollars a day.

There are several reasons that Cuba cannot be safely ignored.

(1) As demonstrated in 1962, their missile bases and arms supplies could be rapidly built up to pose an immediate threat to the United States. Indeed, there is much speculation that a large number of the arms which were supposedly removed during that year still remain on Cuban soil.

(2) Cuba is a spearhead for exciting unrest in all of Latin America. It is a base from which Communists can perpetrate their cause.

LET IT FESTER

(3) As we ignore it, let it fester, Cuba is steadily incriminating its young people towards the Communist ideology. As George Enrique Mendoza, National Director of the State Scholarship Program in Cuba expressed it, "Our commitment is to forge Communists." And forging Communists they are.

America has several roads of action open to it. It can follow its present policy of containment; that is, leaving Cuba alone and not letting the problem or influence there expand. The weakness of this policy is that it places us continually on the defensive; as we have to wait for them to make the first move. Also, it is hard to know where to draw the line at expansion.

Or, we could invade the island and overthrow the present Communist-oriented government. This leaves room for question. Would Russia back down as she has in the past? Would the rest of Latin America support us? Or be turned against us?

SUPPORT EXILES

Or, we could support a government in exile, bringing about an overthrow with indirect United States involvement. We could use US influence and backing to allow the people to gain their own form of government and officials, free from the present threat of imprisonment and strict governmental control; thus safeguarding our own freedom. This seems the most plausible.

Clearly, as Cuban objectives are left unhampered, the threat increases; the problem becomes active. The issue in Cuba is not stagnating, it is growing.

... The woodchoppers are still marching off. Not all of them are returning. They chop and cut at the tree. They chip at its trunk—as a shadow of one of its limbs slowly begins to fall across their homeland.

Ministers Discuss Trade

BUENOS AIRES (UPI) — The Foreign Ministers of 20 Western Hemisphere nations Sunday formally approved a six-point agenda for an April Summit Conference designed to bring the hemisphere closer together through trade and improvement of living conditions.

Formal approval of the agenda ended the two-week-long Ministers' Conference held jointly with charter revision talks for the Organization of American States. The OAS meeting closes Monday.

The Conference set April 12-14 as the dates for the Western Hemisphere summit meeting in Punta Del Este, Uruguay. President Johnson will attend.

The final agenda called for Latin American economic integration and industrial development; multinational action for infra-structure

projects; measures to improve productivity and scientific development and intensification of health in America; modernization of rural programs; and elimination of unemployment and increase of agriculture necessary military expenditures.

Shelling May Escalate War

MOSCOW (UPI) — U.S. Navy shelling of coastal areas of North Vietnam Sunday caused civilian casualties, the official North Vietnamese New Agency reported. The Hanoi regime said the attacks were "a very serious step in escalation of the war."

The North Vietnamese statement, reported by the Soviet news agency Tass in a dispatch from Hanoi, was the first official Communist reaction to the U.S. announcement that American warships have launched artillery attacks against North Vietnam.

'Pokes Hogtie Cougars, 67-56

LARAMIE, WYO. (UPI)—The ball-hawking University of Wyoming Cowboys took a half-game lead in the Western Athletic Conference race with a 67-56 victory over Brigham Young University before 8,075 fans at Memorial Fieldhouse Saturday.

The sixth largest crowd in Wyoming history and the largest since 1968 saw the Cowboys, who were expected to have a rebuilding year this season, win their fourth game in a row and their 12th for the season.

The win left the 'Pokes at 12-12

for the season and 7-2 in the conference with one league game remaining.

COUGARS 6-2

Brigham Young, undefeated in the WAC before Thursday when New Mexico took a 97-75 win at Albuquerque, now stands 6-2 in the league and 12-9 for the season.

Wyoming, which has won six WAC games in a row, stopped Utah 52-49 in Laramie Thursday.

Once again the Cowboys used the "Stranigan Shuffle" to perfection—a tactic employing ball control which has been named after Cow-

boy Coach Bill Stranigan.

Harry Hall, Wyoming's 6-2 sophomore forward, scored 17 points and pulled down 10 rebounds to lead Wyoming in both departments.

Craig Raymond, a 6-11 senior, scored BYU, scoring 24 points and grabbing 13 rebounds.

The Cowboys hit 47 per cent from the field and 74 per cent from the free throw line and out-rebounded the visiting Cougars, 34-32.

BYU hit 12 of 13 from the free throw line for a 92-90 showing.

NEVER TRAILED

Wyoming jumped ahead 4-2 on a long bucket by Hall three minutes into the game and never trailed again, but the out-come was in doubt most of the way.

A hook shot by Raymond with 5:41 in the first half brought BYU within one point, 23-22.

At halftime the Cowboys lead by 31-28. The 'Pokes scored six points in a row midway through the second half to make a 51-40 lead.

BYU Ice Hockey Squad In Two Home Victories

by Dave Fitzpatrick

The Brigham Young Cougars rode the strong scoring arms of Leigh Bannister and Don McCritchie to a pair of weekend hockey wins over visiting Mount Royal Junior College of Calgary, Alberta, 8-5 and 6-5.

Made up of Canadian and U.S. students attending BYU, the Cougars blitzed the Mount Royal Cougars early in both and then staved off eleven-hour rallies to record the victories.

PAIR HOT

Bannister and McCritchie scored six of the Cougars' 14 goals in both games to clear the way. Bannister, a 6-11 forward, slugged in three goals in Friday night's game—two coming on straight one-on-one plays with Cougar goalie Bill Bell.

The Cougars, who annually have one of the better J.C. teams in western Canada, were shut out for the first two periods in the first game as Canuck goalie Jack McKee, making his first start in the series, moved away a number of shots.

She Sets Record

--Spot On Team?

The fact that Linda Eaton, a 145-average bowler, had a 1148 series in a challenge roll-off at the Wilkison Center lanes, may not be something to write home about, but her game scores in achieving the six-game total certainly are.

Miss Eaton, a graduate student in physical education, posted games of 189, 180, 201, 170 and a high game of 233 for a spectacular 1192 average and a house record.

Needless to say, Linda—competing for a position on the women's bowling team—was awarded a spot on the squad. During the record-breaking 253 game, she connected for 10 strikes and one open frame.

Linda Eaton

Southern Illinois To NIT

NEW YORK (UPI)—Southern Illinois, the No. 1 small college team in the country, chose to move up a notch by facing major competition in the National Invitational Tournament rather than accept a bid for the NCAA small college tournament.

The Salukis, who rejected the NCAA bid earlier this week, became the eighth team Friday to join the field for the NIT at Madison Square Garden March 9-18.

Southern Illinois, with an 18-2 record, has two games remaining, against Kentucky Wesleyan—the second-ranked small college team—Saturday night, and Southwest Missouri next Wednesday.

The Salukis' only losses were in overtime to No. 2 major college Louisville—which they later defeated—and a two-point setback to Southern Methodist.

Low Nets 61 In Bruin Win

LOS ANGELES (UPI)—Lew Alcindor, performing at his awesome best, poured in 61 points to shatter the conference scoring record as the No. 1 rated UCLA Bruins clinched the Pacific Eight Championship by defeating Washington State, 100-73, at Pauley Pavilion Saturday night.

Alcindor scored on 26 of 35 field goal attempts, and made 14 of 18 free throws on the way to his record-breaking performance. Alcindor ended up with 24 rebounds for the game.

Sugar Grapplers Maul Utah State Aggies, 24-8

By Glen Willardson
Universe SportsWriter

Utah's wrestling team won a 24-8 victory over Utah State Saturday night in Logan. The triumph gave the Cougars a 9-3-1 record for the season. The Aggies' record is 1-7-3. The Cougars' performance was one of the best of the season. The Aggies' performance was one of the worst. The Cougars' performance was one of the best. The Aggies' performance was one of the worst.

FOUR DECISIONS
The four Cougars won by decision. They were Chuck Henry (135-lb.), Mike Terry (130-lb.), Humphreys (152-lb.), and Epperson (167-lb.). Henry, Terry, and Epperson shut out their opponents by scores of 6-0, 8-0, and 10-0, respectively. Humphreys (152-lb.) won by decision. The Aggies' performance was one of the worst. The Cougars' performance was one of the best.

Ryun Mark-AAU Veto

CHICAGO (UPI)—The Amateur Athletic Union Saturday threw out the decision of Jim Ryun's record-setting half-mile run last year back to the U.S. Track and Field Federation, announcing the decision only minutes after Ryun received the Sullivan Award. The 19-year-old Kansas University sophomore set world records for both the mile, at 3:13.3, and half mile, at 1:44.9, in 1966. Those performances were major factors in Ryun's selection for the Sullivan trophy, awarded to the outstanding athlete annually. He had 749 of 1,172 first place votes. However, his half-mile mark was rejected by the international federation because the meet in which he set it, sponsored by the U.S. Track Federation at Terre Haute, Ind., last June, did not have an AAU sanction. The international federation recognizes the AAU as the official governing track body in the United States.

Church Tourney...

BYU Ward Wins Title

The Brigham Young University 47th Ward won the college division championship of The Church of Jesus Christ of Latter-day Saints basketball tournament Friday by defeating BYU 43rd Ward, 43-32.

BYU 47's John Hatch led his team with 13 points.

In the senior division Van Nuys edged neighboring Mar Vista of Santa Monica, 89-87.

VAN NUYS WINS

Forward Deloy West hit two free throws with eight seconds remaining to give the Van Nuys team the victory and the title in the game played at the University of Utah fieldhouse.

West, who was named the senior division's most valuable player, scored 41 points in leading his team to victory.

UTAH VICTOR

A Utah team won the junior division crown in the week-long tourney. Centerville, Utah, 3rd took the title with a 51-42 win over Garden Park of Salt Lake City.

Centerville was led to victory by Craig Tuelser, who had 14 points.

THE NAME OF OUR
SECRET AGENT
IS SANITONE
SYNFACANT

On every drycleaning job, this amazing new cleaning agent floats dirt out, then

forms a protective shield on fabrics to repel soil. So colors are brighter, whites are whiter. Fabrics look and feel like new again. Let us put this secret agent to work on your drycleaning.

UNIVERSITY CLEANERS

75 East 1150 North - 835 North 700 East

Three location on campus...

Helaman, Deseret, Terrace

READ THE WANT ADS!

Construction is progressing on the new Fox-Intermountain Theater on 12th North, plan-

ned as the second largest theater in the Provo-Orem area.

Around The Campus

CAMPUS DRIVE

The 1967 Campus Chest Drive begins today and will continue through Friday. According to Intercollegiate Knights, sponsor of the annual event, students will be encouraged to donate 25 cents apiece. Money will be collected in wishing wells located throughout the campus, at door-to-door collection on-and off-campus Wednesday, and at Forum Assembly Thursday. Money will be donated to various charity organizations.

FREE FILMS

"Worth Waiting For" and "Till Death Do Us Part," two films in a series sponsored by the six campus stakes, will be shown from 4 to 5 p.m. in 321 Wilkinson Center. Two films will be shown every other Monday and admission is free.

Learn To Fly In 7 Weeks —Provo School

In seven weeks any student can learn to fly by enrolling in the Special Courses and Conferences Aviation Ground School.

The course, taught by Robert Lockey of the Provo Flying School, is designed to enable a person to pass the Federal Aviation Agency Private Examination for pilots.

Visual teaching aids will be used in the class with demonstrations on weather, FAA regulations, navigation, map reading and radio communication from the plane to the tower.

The registration fee for the pre-flight instruction is \$25. This also includes instruction in the use of a computer and plotter, enabling the student to plot his own flying course.

Beginning today, the class will be taught every Monday and Wednesday evening. Registration in 242 Herald R. Clark Bldg. is now being conducted.

FROSH OF THE MONTH

Nominations are being taken for "Freshman of the Month." To nominate a candidate, write down his or her name and the reason why he or she would best represent the Freshman Class. The nominator should include his name and student number, and place the paper in the frosh newsletter boxes in Cannon and Deseret Centers and fourth floor Wilkinson Center.

DIABETICS CLUB

A new campus club for students with diabetes will meet at 7:30 p.m. Thursday in the conference room on the main floor of the Health Center.

BOOK DRIVE

Students interested in working on the "Books for Vietnam Drive" may apply at the Academics Office, 434 Wilkinson Center.

DECORATION CLASS

Interior decoration and design will be the subject of a course taught by Mrs. Phyllis Allen of the Housing and Home Management Dept. Both sections of the class will meet in 3266 Smith Family Living Center on Monday nights, today through April 17. Section one will meet from 7 to 8:30 p.m. and section two from 8:30 to 10 p.m. For further information, contact 242 Herald R. Clark Bldg.

'Israel Today,' Topic Of Speech

Israeli Information Consul Moshe Yegar will speak to the student body Tuesday at 4:10 in 115 Jesse Knight Bldg. on "Israel Today."

An expert in international affairs, political science and Asian affairs, Yegar is a native of Argentina and migrated to Israel in 1935. He was educated in Jerusalem and served with the Israeli defense forces.

The speaker, who is attached to the Consulate General in the Asian Dept. of Ministry, in Washington D.C., is sponsored by Omicron Delta Epsilon Economics Fraternity.

850-Seat Theater In Provo

The first theater to be built in Provo in 50 years will open sometime this June. The new Fox-Intermountain theater is being built on 1200 North and 200 West and represents an investment of about \$500,000.

The new theater will have a seating capacity of 850 and parking spaces for 285 cars. This means it will be the largest theater in Provo and Orem, with the exception of the Paramount.

The theater will have a screen that will cover an entire wall and will be suited for nearly any kind of film. It will be refrigerated and the box office will be located inside the lobby rather than outside.

The older Fox Theater, the Academy, will continue to operate, but the new theater represents an economic gain for Provo in the areas of employment and taxes, not to mention added revenue from entertainment seekers.

FITNESS COURSE

A course in physical fitness for men will begin today and meet weekly until May 9. Contact 242 Herald R. Clark Bldg.
